Content	Group did a fantastic job being creative in making their own role play. The group's role play is related to the given directions/ setting. All sign language was correctly used.	Roleplay correlates to the given directions/ settings. Most of the sign language was used correctly.	Roleplay is completely off topic with no correlation to the given directions/ setting. Sign language was not correctly used. Students did not try.	
Roles	Awesome roles! Every member of the group stayed in character and took their roles seriously. Each student had a defined role.	Group roles were defined well. Students were aware of their characters. At least 1 student did not have a role.	Students did not have defined roles or stay in character. Looked like there was no preparation. 2 or more students did not have a role.	
Cooperation	Students in the group listened to each other's ideas and were extremely respectful to one another. Students got along with each other. Everyone participated with a positive attitude.	All students participated and communicated with each other well. Had a hard time coming to agreements and making decisions.	Students did not get along. Only a few students were participating. Struggled to make decisions. Had to redirect multiple times.	
Preparation	Students in the group were very focused and did an excellent job preparing for their role play. Group worked hard.	Group was switching between being on and off task during preparation time. Was able to achieve a plan for role play	Students did not use time preparation time appropriately. Off task did not achieve a plan for role play.
